Bag In Box (BIB)

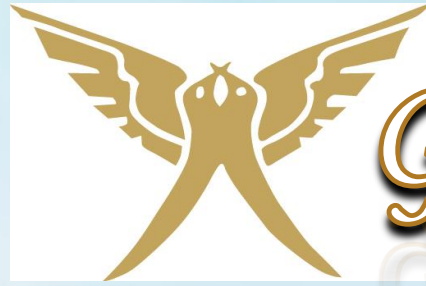

Our Aseptic Bags and Bag-in-Box solutions are energy-efficient, eco-friendly packaging designed for fast-growing industries. With airtight sealing and capacities from 1 to 220 liters, they are ideal for storing liquids such as oil, water, wine, and chemicals, preserving freshness and original quality over time.

We also provide expert consultation on outer packaging, including boxes, cartons, Bag-in-Box filling machines, and sterilization equipment, to ensure a seamless packaging process. Manufactured in a GMP-certified facility, our products meet the highest standards of quality, safety, and performance.
