# Flexitank Bags

G+L Flexitanks are flexible liquid transport bags for standard containers, with capacities from 14,000 to 24,000 liters. They feature multi-layer food-grade PE film and a high-strength PP outer layer for durability and protection.

We offer installation support, accessories, and optional safety features such as heating pads and air release valves. Food-grade 2" and 3" butterfly and ball valves are heat-sealed and pressure-tested to ensure reliable performance.

## Specification

### Multi-Layers Food-Grade PE Films

- 0.125mm of each Four Layers
- 0.125mm of each Three Layers
- 0.25mm of each Two Layers
- Thick and Translucent

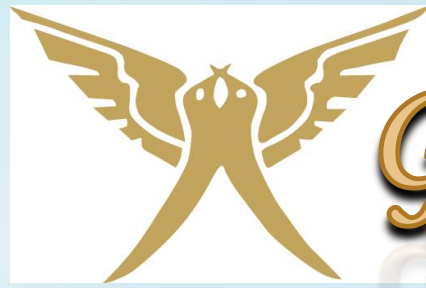

### 1 Outer Layer of PP Fabric

- High Tensile Strength
- Durable

### 3" Butterfly Valve or 3" Ball Valve

- Food Grade
- Advance Heat Sealing Technology
- Pressure and Temperature Tested
- Steamed in Water, Wiped by Alcohol
- Unity Valve to avoid the Potential Risk Between Flange and Valve
